

KONG

WHITEPAPER

Kong Chain is bringing the heat with a multi-chain ecosystem and presale that lets you ape in from almost any blockchain. Easy access for everyone! The earlier you jump in, the better, since the token price goes up every week. Plus, you've got staking rewards, presale perks, and airdrops for the community—basically, keep hustling, and you'll get the bag. Kong Chain is all about building a sustainable DeFi game across multiple chains, rewarding those who stick around.

KONG ECOSYSTEM

The KONG ecosystem is stacked with DeFi tools to keep the gains rolling for the fam. Multi-chain ready, so you can hop from chain to chain, no sweat. You've got staking rewards, weekly airdrops for the grinders, and a presale setup where token prices go up weekly—so early birds get the worm. Oh, and the KONG debit card? Straight utility. Spend your crypto IRL like a boss.

FIRST-EVER UNIFIED STAKING

KONG just flipped the script with the world's first unified staking platform—stake across multiple chains all in one place. No need to stick to one network, just maximize those rewards effortlessly. Early adopters get even fatter returns, so HODL tight. With multi-chain staking, KONG's making it easier than ever to earn, stack, and chill in DeFi. This is next-level accessibility and rewards:

1 week "n" price - **staking rate 150%**

2 week price increases - **staking rate 140%**

3 week price increases - **staking rate 130%**

4 week price increases - **staking rate 120%**

5 week price increases - **staking rate 110%**

Dynamic interest rate depending on the pool size:

Up to \$1,000,000,000 - **150%**
(we look at 1 week)

After \$1,000,000,000 - **125%**

Accordingly, if you take it by
week, minus 25% of 1 million and
that's it

Withdrawal penalty:

If you withdrew before 1
month - **a penalty of 25% of
the entire amount (body + %)**

If you withdrew before 2 months
- **you take all your tokens and
nothing % of staking**

SECURE & TRANSPARENT

KONG's got your back when it comes to security and transparency. Everything's fully on-chain, and they've been audited by Coinsult to make sure your bags are safe. No rug-pull vibes here! You can ape into staking, presales, and daily transactions with full confidence, knowing the system's rock solid. Decentralized tech plus third-party verification keeps everything legit.

HUGE REWARDS INCOMING

KONG's got massive rewards lined up, and early birds are gonna eat! With staking, presales, and community incentives, you're looking at some serious gains. Weekly token price bumps make it super juicy to get in early. The staking system lets you stake across multiple chains for max returns. Plus, with regular airdrops and bonuses for active holders, there's always more to grab. KONG's built for long-term gains, so hold tight and reap the rewards!

AIRDROP TIME

KONG's dropping 10% of the total token supply in a massive airdrop—don't miss out! It's going down on the Zealy platform, so it's all fair and transparent. This is your chance to grab free tokens and ride KONG's growth. Early supporters get the hookup with exclusive rewards and opportunities in the ecosystem. Ready to score some freebies? Jump into the airdrop and secure your bag!
